SKILLS

JavaScript, React, Redux, HTML, CSS, Ruby, Ruby on Rails, Mongoose, MongoDB, Node.js, Express.js, SQL, SQLite3, PostgreSQL, webpack, jQuery, Git, Heroku

PROJECTS

Harmonic (Rails, ReactJS)

[live](#) | [github](#)

Harmonic is a Reverb.com clone where musicians can buy and sell used and musical gear using ruby on rails for backend and react for the frontend

- Produced Modal interface to streamline user experience.
- Implemented AWS services to help minimize workload of the backend.
- Integrated review dynamic review feature tailored to provide users a way of sharing their experiences.

What's cooking? (ReactJS)

[live](#) | [github](#)

Using the full power of a MERN stack this website lets users enter ingredients in their fridge and search for recipes based on those ingredients

- Created animation design that catches users' curiosity and gives them ideas on recipes to look for.
- Integrate design ideas with the search feature to give a unique spin on this feature and catch users curiosity and fascination.
- Seamlessly integrate API to populate ingredients and recipe lists to create a fun and lively site.

Battle for Yavin (Javascript)

[live](#) | [github](#)

A Star Wars spin on the classic game Gradius utilizing vanilla javascript

- Encapsulated the 90s aesthetic through the layout of the website designed to emulate an arcade machine.
- Built in functionality into design such as 'insert coin' made to mimic restart functionality.
- Leaning into the power of vanilla javascript to seamlessly create an arcade style game
